Wealth Distribution (Natural Capital Per Capita)

0 - 16423
16424 - 47788
47789 - 101901
101902 - 232275
232276 - 414113
414114 - 917530

Countries with more wealth tend to have more airports. This is because residents in these countries travel more often and have more use for these airports. Also, countries with more wealth are able to build and maintain the airports while countries with less wealth are unable to.
